The National Federation of Nonpublic School State Accrediting Associations (NFSSAA) met in Milwaukee Wisconsin on June 11-13, 2024. ANSAA Executive Director Kristine Grelle was in attendance. In keeping with the goal of the coalition of the state accrediting agencies’ commitment to maintaining and advancing high standards of quality for their member schools, a considerable amount of time was focused on the needs of our member schools and the current political impact in our states. The collaboration with other state accrediting agencies strengthens ANSAA and provides national recognition for our individual schools. <http://www.nfssaa.com/>
